Wheelbarrow and Hay Carts

Try something a little different for a special occasion, Mother's Day, Easter, or Christmas. Instead of a traditional ceramic or plastic pot why not give a little garden wheelbarrow or haycart? Their wrought iron wheels give them an authentic look. They are terrific planted up with our Supamoss (see pages 26-27).

Wooden Bridge

Check out this bridge! It takes about 15 minutes to put together and is very sturdy. The deck of the bridge is a routed non-slip surface. This bridge makes a great accent in the yard, especially over a pond or dry river bed.
